

Committed to safety and quality

We are the one of the largest suppliers to Indian Oil Corporation Limited (IOCL), Bharat Petroleum Corporation Limited (BPCL) and Hindustan Petroleum Corporation Limited (HPCL) because of our unwavering commitment to safety and quality. We strictly adhere to Indian and international standards laid by the Bureau of Indian Standards, ISO 9001:2000, and Bureau Veritas.

Our stringent Quality Management System ensures reliability, resilience and safety. It comprises quality checks at each stage, from the procurement of raw materials to evaluation of the finished product.

# About Us

With experience of over two decades and an annual turnover of \$15+ million in 2020–2021, Carbac Holdings Limited is one of the largest manufacturers and exporters of LPG cylinders and LPG valves in India. We manufacture high-quality valves in line with Kosan Technova technology and also conform to all major international safety standards. Apart from being an ISO 9001:2000 certified company, all our solutions bear a stamp of approval from the Bureau of Indian Standards, Petroleum and Explosives Safety Organisation, and the Chief Controller of Explosives (India).

Apart from being preferred suppliers to Indian Oil Corporation Limited, Bharat Petroleum Corporation Limited and Hindustan Petroleum Corporation Limited, we have clients in Bhutan, Myanmar and Bangladesh.

At our state-of-the-art facility in Kolkata, India, we combine best-in-class materials with a lean production process, latest technology and stringent quality control. This ensures that we manufacture quality products that exceed customers' expectations.

## Our Mission

To be a global leader in the LPG cylinder and valve manufacturing arena.

To be a global leader in the LPG cylinder and valve manufacturing arena, championing the highest standards of quality, safety and reliability. We aim to ensure 100% satisfaction amongst stakeholders by using latest technology and providing unparalleled after-sales service.

## Our Vision

Use our competencies to better society for our stakeholders and generations to follow.

As a responsible and socially-aware business, we are devoted to using our competencies to better society for our stakeholders and generations to follow.

We are proud to have been a major contributor to the Government's flagship initiative:

Pradhan Mantri Ujjwala Yojana, a scheme that envisages a smoke-free rural India. As part of this initiative, CHL has provided families from underserved communities with over 5 million LPG connections.

# Our Products

## Welded and High-Tensile LPG Cylinders

As one of the first and top manufacturers of LPG cylinders in India, we offer LPG cylinders of the best quality, certified by ISO, BIS, CCOE and PESO. We specialise in two-piece welded LPG cylinders and high-tensile LPG cylinders that are light-weight yet extremely sturdy. Made with superior-quality, high-tensile steel, these cylinders are easy to transport, have a long life and are space efficient as well.

Our welded LPG cylinders are available in 2kg, 5kg, 14.2kg, 19kg and 45kg sizes. We offer 14.2kg cylinders mainly for domestic use, and supply larger cylinders, such as 19kg and 45kg cylinders to hotels, restaurants and for industrial use. High-tensile LPG cylinders are also available in the similar range of sizes.

## Valves for LPG Cylinders

Carbac Holdings Limited has manufactured over 15 million valves for companies such as Indian Oil Corporation Limited, Bharat Petroleum Corporation Limited and Hindustan Petroleum Corporation Limited. Our LPG valves are manufactured as per the Kosan Technova technology from Denmark, and have been approved by the Chief Controller of Explosives of India and Petroleum and Explosives Safety Organisation. Our range of LPG valves include:

- Valves with Safety Relief
- Self-Closing Valves
- Camping Valves
- Combo Valves

## Repairing and Refurbishing LPG Cylinders

Along with creating high-quality storage solutions for a clean and green gas, we are also committed to sustainability. Therefore, we refurbish and repair existing LPG cylinders in circulation to reduce wastage and optimise supply chain efficiencies for oil companies. We undertake repairs and change valves to ensure that cylinders are completely safe and leak-proof.
